About the book

After extensive original research and a decade as the world's highest-paid performance coach, Brendon Burchard finally reveals the most effective habits for reaching long-term success. Based on one of the largest surveys ever conducted on high performers, it turns out that just six habits move the needle the most in helping you succeed. Adopt these six habits, and you win. Neglect them, and life is a never-ending struggle.

We all want to be high performing in every area of our lives. But how? Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? This book is about the art and science of how to practice these proven habits. Each of the six habits is illustrated by powerful vignettes, cutting-edge science, thought-provoking exercises, and real-world daily practices you can implement right now.
